How to order

When ordering **NOS™** products all you need to know is the part numbers of products that you require. If you are unsure of which products to order Earl's have the experience to solve most problems.

AN IMPORTANT NOTE ON NOS™ BOTTLES EU LEGAL STATUS

NOS™ bottles are DOT approved but are NOT legal to refill in the EU, however **NOS™** bottles are available for show use only. To legally refill a **NOS™** bottle, the bottle must be sent to a USA refiller and re-imported. To order a EU legal bottle please order a kit without a bottle, by using the addition of the code NB, and then separately order one of our EU legal bottles.

For example, state your order code with NB to show you require no bottle: 05130-NBNOS. Then order a separate EU bottle, for example: 14805-PNOS.

Please note that if you order a EU legal bottle you will also receive no bottle brackets with your kit. The EU bottles we sell are NOT compatible with **NOS™** brackets.

Delivery – When you place your order we will tell you the exact situation and when you will receive your order.

Easy payment – We will not charge you credit card surcharges, and we will never charge our credit card until goods are dispatched.

If you have any queries on your **NOS™** requirements, please contact us and we will be pleased to help you.
